

Penton Craning – Customer Pre-Lift Checklist

Customer Name: _____

Vessel Name: _____

Date: _____

Please confirm the following before your vessel is lifted:

- ☐ I have informed Penton Craning of the vessel's approximate weight.
- ☐ I have advised Penton Craning of any known defects, previous repairs or areas of concern.
- ☐ Water, fuel and holding tank levels have been declared where requested.
- ☐ All loose items have been removed or securely stowed.
- ☐ **I have removed all fenders, with the exception of two fenders on the starboard side.**
- ☐ **The radar arch has been lowered/hinged down (where applicable).**
- ☐ **Aerials, antennas and other protruding equipment have been lowered, removed or secured where applicable.**
- ☐ **Canopies, cockpit covers and flybridge covers have been removed or secured where applicable.**
- ☐ Seacocks are closed (where applicable).
- ☐ The vessel is ready to be lifted and access is clear.
- ☐ I have advised Penton Craning of any special lifting instructions or manufacturer lifting points.
- ☐ I understand that Penton Craning will position lifting slings using the information available at the time of the lift.
- ☐ I understand that Penton Craning will not accept responsibility for hidden defects, damage to previous repairs, structural weaknesses or failures that are not visible or omitted by the customer before lifting.

Customer Declaration

I confirm that the information provided above is true and accurate to the best of my knowledge and authorise Penton Craning to proceed with the lifting operation.
